Jonathan D Bright

Burnet, TX, (512) 766-2451, JBSpiritous@proton.me, ORCID: 0009-0001-6780-149X, Link: linktr.ee/JBSpirit

Professional Summary:

GIS student at Oregon State University with experience in data entry, records management, document transcription, proofreading, customer service, and detailed research documentation. Experienced working independently with digital and archival records, maintaining accuracy and consistency, and completing written work by deadline. Proficient with Microsoft Excel and familiar with Microsoft 365 applications.

Skills:

• Google Earth/high-resolution imagery	• Data Entry and Editing
• Collect Earth Online	• Data Querying and Analysis
• (LCMS) Landscape Change Monitoring System	• Data Digitization
• ArcGIS StoryMaps/ArcGIS Online	• Data Cleaning & Standardization
• Sample-plot design and point interpretation	• Records Management
• Land-use interpretation/Land-Cover Analysis	• Archival Document Transcription & Handling
• Spatial data analysis	• Historical and archival records research
• Time-series change analysis	• Quality control and data accuracy
• Microsoft Excel/Google Sheets	• Technical & Academic Writing
• Cartographic design/map layout	• Proofreading & Editing
• Python (introductory; data querying and scripting)	• SQL (introductory; attribute and record queries)

Education:

Bachelor of Science in Geographic Information Systems with a minor in Data Science September 2025 - Present
Oregon State University, Corvallis, OR

Bachelor of Applied Science, Game Art June 2023 - January 2024
Full Sail University, Winter Park, FL

Projects:

Undergraduate Research Analyst Jan. 2026 - Present | 5 hrs/week
Land-Cover Change along the SH 29 Corridor, Central Texas
Oregon State University URSA(Undergraduate Research, Scholarship, and the Arts) Remote
Manuscript submitted to the Journal of Earth Observation and Geospatial Applications (JEOGA), August 2026.
https://journals.westga.edu/index.php/jeoga
https://arcg.is - StoryMap

- Executed systematic visual interpretation of 3,700 high-resolution satellite imagery sample points within Collect Earth Online to build a localized ground-truth dataset.
- Navigated custom web-based database extraction protocols to ingest, clean, and consolidate disparate regional geospatial products, including USDA LCMS, ESA WorldCover, and USGS LCMAP records.
- Conducted database cross-validation and quality control to map a 44% decline in tree canopy cover and a corresponding rise in developed surfaces along a critical infrastructure corridor.
- Synthesized multi-source spatial data summaries into standardized spreadsheets, comprehensive statistical tables, and comparative cartographic layouts for academic showcase.
- Compiled comprehensive data tables, cartographic layouts, and an analytical technical report presented at the OSU URSA Symposium.

West Virginia Coal Mining StoryMap 2026
Course term project Remote
https://arcg.is - StoryMap

- Built an ArcGIS StoryMap synthesizing published research and public spatial data on the environmental and economic legacy of coal mining in West Virginia.
- Designed locator and thematic maps, organized source material, and wrote the narrative for a public-facing web format.

Volunteer Experience:

Civilian Archivist Jan. 2025 - Present | 5 hrs/week
U.S. National Archives and Records Administration Remote

- Transcribe historical handwritten documents into digital text for long-term preservation.
- Ensure accuracy and consistency to support archival research and public access.

GIS Volunteer Aug. 2026 - Present
GPN's GISCorps Remote

- Joined GISCorps to contribute GIS support on short-term volunteer assignments for communities and organizations in need, including disaster response and humanitarian mapping.
- Applying GIS skills to short-term remote humanitarian mapping assignments and expanding proficiency in core GIS tools through active project participation.

Library Assistant Volunteer May 2025 - Present | 4–8 hrs/week
Herman Brown Free Library Burnet, TX

- Shelving and Circulation Support: Provided assistance with shelving returned materials and organizing library collections, ensuring books and other items were accurately sorted and easily accessible for public use.
- Genealogy Room Support: Collaborated on operations at the Elizabeth Van Gorkum Genealogical Center, helping visitors locate and use historical and genealogical resources for research.
- Book Repair and Maintenance: Participated in the repair and preservation of damaged library materials, including reinforcing book bindings, mending pages, and performing basic conservation procedures.

Work Experience:

Freelance Proofreader Jan. 2021 - Present | 5–10 hrs/week
Remote — Upwork, Direct Clients

- Edit academic, technical, and professional documents for grammar, clarity, and formatting.
- Return client-ready drafts on deadline.

Sales Associate / Customer Service Representative Jun. 2018 - Jan. 2019 | 30–40 hrs/week
Walmart, Georgetown, TX

- Assisted customers in locating merchandise, completing purchases, and processing returns.

Certificates:

Microsoft 365 Essentials — LinkedIn (2024)
Microsoft Excel — LinkedIn (2024)
Customer Service Foundations — LinkedIn (2024)
QuickBooks Fundamentals — Intuit Academy (2024)
Certification in COI in Research Training — CITI Program (Feb 2026 through Feb 2029)
